

I am writing to show my support for the licensing of KLOVE radio and to encourage its continuance. KLOVE is a refreshing oasis in the midst of a plethora of other stations that think using profanity and objectionable language/subject matter on the air is standard procedure. The music played on KLOVE is free of material that would be harmful or inappropriate for people of any age who might be listening. Its spiritual emphasis has been of great encouragement to myself on many occasions. I believe the American public would be better off all around if there were more stations like KLOVE that uphold moral standards and a faith in God that our nation was founded upon. Please do not discontinue KLOVE's broadcasting in the Modesto area.
